

Deliberate and lustful masturbation in Ramadan is alright!

Albani talks about masturbation in one of his sessions: deliberate and lustful masturbation in Ramadan middays is allowed, only the common relationship of a man and woman is banned. But even masturbating between one's wife's legs is alright. And the reason is a narration quoted from Aisha. (However, lack of clarity and length of the audio file –being about 8 minutes- stopped us from translating the rest of it. He even teases Qarzavi somewhere in the audio file.)
